Ontario Parks

The mission of Ontario Parks is to: "Protect and manage provincially significant natural, cultural and recreational environments in a system of provincial parks and provide a variety of outdoor recreational activities".

44 different Provincial Parks offer staff led interpretive programs to park visitors and they are recruiting staff now.

Role of Interpretation

Park interpreters research, develop and deliver exciting educational programs that help visitors understand and appreciate the unique natural and cultural resources of their park. Evening programs, campfires, guided hikes, children's programs and canoe hikes are just a taste of the activities presented by park interpreters. They also spend time answering questions at interpretive centres.

Opportunities and Benefits for Ontario Parks Interpreters

During the season you will have the opportunity to:

- work as part of a parks team to develop and deliver programs
- research, study and/or interpret natural and cultural history
- apply your unique talents to programs and projects
- gain valuable experience in interpretive programming
- network and learn from other professionals across Ontario
- attend training workshops to build on your interpretive skills

How to Apply

Hiring occurs at individual Ontario Parks, so apply directly to the park(s) in which you are interested in working. The location and contact information for all parks offering interpretive programs is available in this brochure and by visiting our web site at: www.OntarioParks.com. Here you can discover additional information about each park and what it has to offer. The seasonal interpretive positions are generally two to six months in length, ranging from May to October, but may vary depending on the park and/or your availability. Parks that may have seasonal housing available are listed in this brochure. Most parks accept applications in February and complete hiring by May for the summer season.
